INTRODUCTION

Thank you for your interest in the Sterbuck Capital. The Loan Program is committed to working with entrepreneurs to create new and better business funding for the global goal. The Loan Program is intended to further the economic development policies as set forth Comprehensive Plan.

Before you apply, we encourage you to be acquainted with the program objectives and requirements mentioned in this introduction, **Section 1**, consists of eligibility requirements, and **Section 2** describes the application process, followed by the **application form** itself.

Each loan application is individually evaluated. The loan conditions will consider the financial needs of the borrower, the degree of risk in lending, your credit history, and the degree of public benefit to be derived from the loan. The interest rate is normally set at the prime rate. In order to assist a significant number of businesses, the amount of each loan is capped at \$1 Million and above.

Intent:

The primary intent of the Sterbuck Capital Business Loan is to further the economic development goals and objectives of the Global market projects as set forth in the Global 's Comprehensive Plan, the Global Center element of the Comprehensive Plan, and the Global 's Retail Enhancement Strategy. In efforts to obtain these goals, the Business Loan Program may be used as an economic development tool (incentive) to retain, expand or attract businesses to Sterbuck Capital Group.

Secondary purposes of the Loan Program include the creation and retention of employment opportunities within the Globe for low and moderate income individuals. The loan is capitalized through the repayments of loans made using NY regulations apply.

Eligible Uses:

Loan Restrictions:

The Loan Program is intended as a source of "gap financing." The Global of East Lansing will use the Loan Program to work with banks and other financial institutions to put together loan packages for businesses. The Loan Program should not be seen as the sole source of business finance, and therefore, must be matched with some form of traditional bank financing.

Loan Terms and Conditions:

Terms and conditions are flexible, and will be determined on the ability of the applicant to repay the loan, the public benefits to result from the loan, and the level of risk involved.
